1. Introduction of REED-Pk: "Solidarity Building towards Sustainable Rural Development"

Rural Education and Economic Development Society (REED Society) is a non-profitable, non-government and humanitarian organization, registered under the Registration Act of 1860 with the government of Pakistan. REED Society is working for the integral development of the rural marginalized communities without any discrimination of race, creed, and religion in Punjab, Sindh and Baluchistan since 2002 and become registered in May 2004. REED-Society appear as a result of in-depth reflection and after having significant review by its likeminded group of men and women concerned for the integral development of the rural society, in response to unsatisfactory development and efforts made for socio-economic development of the marginalized and weaker section of the society

1.1 Geographical Coverage:

Sr.#	Province	District	Office Address
1	Punjab	Rahim Yar Khan	Head Office-Canal Park Street No. 1 House No.1 Near Govt. Girls College
2		Vehari	House No. 56, New Sharqi Colony-Vehari
3		Multan	REEDS Office a joint office with Pattan Org. So, C/O Pattan Development Organization Moza Bahadar Pur Bosan Road Multan
4		Rajanpur	Working from home and operational from Rahim Yar Khan
5		Bahawalpur	Near Saint Mary's High School 100 ft Road Islam Colony Bahawalpur
6		T. T Singh	Ghousia Colony Near bus terminal Peer Mahal Distt. Toba Tek Singh
7		Lodhran	Phase 1 Al-Noor Garden Super Chowk Lodhran
		DG Khan	Amin Town Near Mohsin Marriage hall Kot Chutta Distt. D.G Khan
	Mianwali	Green Town Talagang road near grid station Mianwali	
1	Sindh	Ghotki	Al-Fateh Model Town- Phase 3, House No. D-14 By-Pass Dehrki
2		Dadu	Near Mari Stops Alkani Street, Jamali housing Society-Dadu
3		Jamshoro	
1	Baluchistan	Gwadar	Mohala Shambay Ismail Near Iqra Mosque Tehsil and District Gwadar

1.2 Legal Status of the REEDS:

1. REEDS registered under the Registration Act of 1860 with the government of Pakistan
2. REEDS renewed from Charity Commission Punjab for 2024
3. REEDS signed MOU with Economic Affairs Division Islamabad till December 2023
4. REEDS have NOCs of district Administration from all the implementation districts of Sindh, Baluchistan and Punjab
5. REEDS got NOCs from Home Department Punjab for implementation of different projects in Rahim Yar Khan, Vehari, Mianwali, DG Khan etc.

1.3 REEDS Mandate:

REEDS works by motivating people for self-confidence keeping in view the principals and practices of community development, supporting to help themselves come out of poverty, hunger and inequalities. REEDS works to bring relief and aid to people whose lives has been distressed by natural disaster.

1.4 REED-PK Staff & Volunteers

Sr.#	Designation	No. of Posts	Male	Female	She males / Transgender
1	Regular Staff (CEO, M&E, PC, PM, FF/SO)	618	485	132	1
2	Volunteers (CERTS,		425	338	11
TOTAL		618	910	470	12

2- Background of the Assessment:

According to Pakistan's National Disaster Management Authority (NDMA), as of 3rd September the severe adverse weather has resulted in the Total Population Damage **33,046,329 in 80 districts of Punjab, Sindh, Baluchistan, GB, KP, AJ&K, deaths of at least 1290 people**, including 570 males, 259 female and 453 children, while **12588 people** were injured, including **5267 males, 3355 female and 3966 children, Total houses damage are 1468019 including 923643 partially damage while 544376 are fully damage.** In addition, **736,459 livestock** are died or drowned whereas 5563 Km roads, 243 bridges and 173 shops also damaged. <http://cms.ndma.gov.pk/storage/app/public/situation-reports/September2022/lvA8FuHC9C1pun4DEZOa.pdf>

Increased casualty rate, economic losses, and damage to infrastructure and livelihood causing a huge impact on vulnerable populations calls for an immediate yet coordinated humanitarian relief and response because heavy rains, hill torrents, flashflooding and Breaches to MNV (Main Nara Valley) drain did the most damage this year, leaving behind a trail of tragedy of homelessness and material losses like livestock, crops, valuables kept safe in homes.

3- District Wise Summary of Damages & Losses:

Sr.#	District	Tehsil/ Taluka	No. Of UC damage	House damage	Crop Damage (Acres)	Injured	Deaths	Livestock Losses	Pop Affected	Persons in Relief Camps
1	Dadu	4	66	39066	97330	28	35	623	818,000	41764
2	Jamshoro	4	28	30285	23537	0	0	450	35750	30000
3	Jacobabad	3	44	78756	103800	164	19	1002	480,824	40000
4	Ghotki	5	66	15138	346863	40	12	337	86,590	82181
Total		15	204	163245	571530	232	48	2412	1421164	193945

4- Government Immediate Action Taken:

According to the PDMA (Sindh)/ (SITREP)/2022/955 Daily Rain-Flood Report dated 03rd Sep 2022, PDMA & NDMA Punjab provided 131.988 tents, 14 hospital tents, 573,845 mosquito nets, 50,882 ration bags, 1,950 plastic mat/Chatai, 90,810 plastic tarpaulin, 7,556 animal mosquito nets, 17,330 jerry canes, 88 dewatering pumps (TM), 76 dewatering pumps (GS), 174 dewatering pumps small, 16,019kitchen sets, 50 boats with OBM, 190 life jackets, 158 water coolers, 4,293 folding beds, 4,720pillows, 4,620 bed sheets, 3,810 wooden pellet, 1,350 stoves, 1,000 hygiene kits, 1,514 school shelter, 18 chemical spray machines and 15 portable wash rooms to the flood population in Sindh province. In addition to the aforementioned relief, FGRE (INGO) provided cooked food (1058 Daigs) to the flood affected people. Out of 131.988 tents, PDMA/NDMA provided 600 tents in Jacobabad, 960 tents and 500 tarpaulin sheets in Jamshoro district. https://www.pdma.gos.pk/new/Docs/SITREP_03-09-2022.pdf

5- Humanitarian Organizations working in the area:

Sr.#	District	Name of the Organization
1	Dadu	1-Rural Education and Economic Development Society (REEDS) 2-District Administration 3-Sujag Sansar Organization 4-HANDS 5-AI Khidmat
2	Jamshoro	1-Rural Education and Economic Development Society (REEDS) 2-District Administration 3-NARI Development Organization
3	Ghotki	1-Rural Education and Economic Development Society (REEDS) 2-Local Org with REEDS Support 3-District Administration
4	Jacobabad	1-Christian Social Uplift Population (CSUP)

6- Objective of the Assessment

1. To assess the extent and magnitude of damage caused by floods and heavy rains
2. Identify any immediate emergency interventions required for the affected communities in Sindh (Ghotki, Dadu, Jamshoro & Jacobabad)

7- Rapid Need Assessment by the REEDS Team:

District Ghotki, Dadu and Jamshoro are the project areas of REEDS from Last many years with proper structure and having more than 256 regular male and female field staff members along with 48700 cotton farmers., while Jacobabad we have a consortium partner Keeping in view the situation REEDS local team along with the Relief and Rehabilitation Program team conducted a Rapid Need Assessment as per the described format. Rahim Yar Khan district is also area where REEDS also implementing project with the financial support of KNH-Germany.

7.1-Team Members for Assessment:

Sr.#	Name	Designation
1	Dr. Benjamin Barkat	Program Manager DRR
2	Muhammad Abdullah	Project Coordinator DRR-Sindh
3	Dr. Muzafar Saeed	Program Manager-Health & Immunization
4	Dr. Zahid	Veterinarian
5	Mrs. Azra Memon	Field Coordinator
6	Miss Robina Mansoor	Monitoring Officer
7	Ms. Komal Younis	Data Management Officer
8	Staff	More than 256 staff from all the districts
9	Volunteers	REEDS established Emergency Response Teams

8- Assessment Methodology:

- 1- This assessment primarily targeted the most affected areas in three affected districts of Sindh including Dadu, Jamshoro, Ghotki and Jacobabad
- 2- Data collection from all the district administration focal persons i.e District Disaster Management Coordinator, Flood Control Room, News Paper etc.
- 3- RNA Tool development
- 4- Orientation of the staff/volunteers regarding the tool
- 5- Physical meeting and field visit with the rain/flood affectees and the stakeholders where possible
- 6- Secondary data as per SITREP/situation report released on daily basis by the district government and National Disaster Management Authority (NDMA)

9- Rapid Assessment During emergencies Limitations:

Due to time constraint and difficulty in access to all areas, selection of respondents and ensuring inclusion, communication to majority of most affected and vulnerable population is compromised. Therefore, the assessment may not be able to produce comprehensive information. Information from various sources and from different assessments may not be comparable although the information collected through REEDS staff available in the districts of regular projects.

10- Criteria for the selection of RNA Area:

- 1-The calamity hit area/districts declared by the Provisional Disaster Management Authority
- 2-District Administration request for the support of flood affectees
- 3-Highly affected Tehsils and Union Councils with the consultation of District Administration
- 4-REEDS have direct presence in the district/Tehsils and have close coordination with the local communities

11- Coordination Meetings with District Administration:

Sr.#	Name	Designation	District	Contact No
1	Mr. M. Anis	PA to DC Ghotki	Ghotki	
2	Mr. Shah Zaman	PA to DC Dadu	Dadu	0300-3069240
3	Dr. Zahid	ADC-1	Dadu	0331-3093378
4	Mr. Ahmad Samejo	DHO	Dadu	0300-3514494
5	Mr. Bashir Ahmad	Regional Manager- Islamic Relief	Sindh	0301-5065018
6	Mr. Shahnawaz	Addition Director-Agri Extension	Dadu	0302-3466137
7	Ms. Tehmina	District Manager	Dadu	0308-3180028
8	Dr. Abdul Aziz	District Manager	Dadu	0333-2787514
9	Mr. Mashooque Birahmani	CEO-Sujag Sansar Organization	Dadu	0300-3024563
10	Mr. Khadim Babar	Representative HHRD	Dadu	0300-3256467
11	Mr. Amjad	IN charge-Mobile Medical Camp	Dadu	0333-3203982
12	Mr. Hadayat Shah	AD-Social Welfare department	Dadu	0313-718602
13	Mr. Aijaz	DD-Agri Extension	Jamshoro	0301-3913952
14	Ms. Shahnaz	District Manager	Jamshoro	0307-0300547
15	Mr. Shahnawaz	AD-Social welfare	Hyderabad Division	0313-3073197
16	Mr. Deedar Ali Kanrani	Mukhtiarkar	Jacobabad	0333-7308740

12- Key Findings and Recommendations:

Floods have affected all the basic services that existed in the IDP settlements. This includes WASH, Education, livelihoods, Agriculture & Livestock, Health and Nutrition. In WASH, infrastructures such as water kiosks, communal latrines, HHs latrines have been demolished and filled with water leaving affected HHs to practice open defecation. Mobile health team cannot access some of the IDPs settlements due to flood. Since the transport pathways are stopped from the settlement to the main town, IDPs HH cannot access their livelihood strategies.

As per the notification No. R/F-272/2022 dated 21-08-2022 of Government of Sindh Additional Relief Commissioner, on account of heavy rains during monsoon 2022 declared 23 districts of Sindh "Calamity Affected Area" under the provision of the Sindh National Calamities (Prevention & Relief) Act 1958.

Summary of the Rapid Need Assessment (RNA) of rain/flood emergency conducted in some affected Tehsils and Union Councils of Following Districts

1-District Dadu 2-District Jamshoro 3-District Ghotki 4-District Jacobabad

12.1-Details of House Damage:

The assessed communities are in the worst situation, where the survival, itself, seems a challenge to those living in tents with no supplies to manage their basic needs. Due to recent rainfall/flood people have lost their houses and livestock. The affected people require temporary shelter or tarpaulin sheets.

Sr.#	District	Tehsil	No. of UC affected	No. of Mouza/dehs affected	House Damage		
					Fully	Partially	Total
1	Dadu	Johi	14	262	12196	9757	21953

15		Ubauro	8	59	8000	1333	0	0	0	0
Total			116	645	900725	124002	23	16	23	62

12.3-Sanitation, Health & Hygiene:

Due to stagnant water, there is a significant risk of Mosquitos and other vectors growth. This may spread vector borne diseases on large scale such as malaria, diarrhea, hepatitis. The poor hygienic conditions may also result in spread and outbreak of other highly contagious diseases such as measles and pneumonia, these may affect the vulnerable population such as children, pregnant women and person of old age and with disabilities.

Sr.#	District	Tehsil	No. of UC affected	No. of Mouza/dehs affected	Latrines Damage
1	Dadu	Johi	14	262	10500
2		KN Shah	2	8	4000
3		Mehar	2	15	6700
4		Dadu	1	1	1000
5	Jamshoro	Sehwan	4	18	4000
6		Manjhand	6	22	5000
7	Jacobabad	Jacobabad	14	11	21264
8		Thul	24	18	35039
9		Garhi Khairo	6	9	22052

10	Ghotki	Khangarh	8	37	6000
11		Ghotki	10	77	9800
13		Mirpur Mathelo	10	60	8000
14		Daharki	7	48	5500
15		Ubauro	8	59	7500
Total			116	645	68000

In the view of survey REEDS team observed that the IDPs are living in poor hygiene condition without any latrine and cleaning facilities. Health conditions are believed to worsen in coming days causing water borne diseases, malaria, Gastro, and fever. REEDS staff estimated that almost **22200 latrines in Dadu and 9000 in Jamshoro damaged** while the exact data will be collected after the water dries. As REEDS team is working from last four years in District Dadu and Jamshoro directly with 19500 farmers. REEDS with the coordination of District Health Department initiated mobile medical camps but they are not sufficient. It is feared that if proper medical facilities are not arranged at district level, commonly experienced diseases will cause large scale deaths of IDPs, especially women, children, and elderly persons. Many IDPs have started to complaint skin and fever problems at different camps and settlements.

12.4-Details of the Crop Damage

Agriculture is main source of rural communities' hundreds of villages and crop fields have been affected or badly damaged by floods, the major crops affected are Cotton, Rice, fodder, Maze, Lentils etc.

Sr. #	District	Tehsil	No. of UC affected	No. of Mouza/dehs affected	Crop Damage (acres)				
					Cotton	Rice	Onion	Chilies	Total
1	Dadu	Johi	14	262	1177	2160	56850	54577	114764

15		Ubauro	8	59	9940	0	0	0	9940
Total			116	645	54053	2160	56850	56023	169086

12.5-Details of Livestock died/drowned

The livestock species play very important economic, social and cultural functions for rural households in flood affected areas they contribute to improve income and wellbeing of the farm family. Livestock helps them for food supply, family nutrition, family income, asset savings, soil productivity, livelihoods, transport, agricultural traction, agricultural diversification and sustainable agricultural production, family and community employment, ritual purposes and social status. In the recent floods livestock is the major component which affected the most.

Further, mostly women are engaged in livestock management but the department does not have availability of the female staff to technically facilitate the poor women and pre as well as during the flood, the vaccination did not benefit properly due to the less interest and commitment of the livestock department. Not-only the livestock thousands of poultry birds and poultry sheds has been destroyed.

Sr.#	District	Tehsil	No. of UC affected	No. of Mouza/dehs affected	Livestock Losses (losses) Died

12.6-Food stored in shape of Wheat and Rice destroyed in Maunds (40 kg/maunds)

IDPs in different camps as well people in the water are facing shortage of food items which is increasing their sufferings. It is estimated though numerous visits to spontaneous settlements and camps and only 8 to 10 percentages to total IDPs are able to feed properly while people in water have lost their food stored in the shape of wheat and rice. Majority of the population at camps on the safety bunds and settlements is women, infant, children, and elderly persons. It is feared that nutrition deficiency in women and children shall cause health problems in next few days. As a whole 29151 Maunds of wheat and 28695 Maunds of rice has been destroyed.

12.7-Water sources destroyed (irrigation & drinking water)

In case of irrigation sources almost 100% tube wells and hand pumps are destroyed and need full repair and maintenance to make it functional for the next crop.

The stagnant water level is about 4-6 ft. and it will take about weeks to recede water so dewatering is identified as one of the major needs as families and children are still stuck at their homes, many roads and streets are submerged in water limiting the mobility and access of the people to the markets and other necessities. There is an urgent need for ensuring supplies of safe drinking water through tankers, and water treatment measures (chlorine) or supplies. As health risks are associated with the use of contaminated and untreated water for drinking purpose.

13- Key Issues/Challenges at the time of assessment:

14- Recommendations by the Team during Emergency:

In a rain/flood emergency, all assessed districts reported to some extent similar basic priority needs. Now it's very crucial to provide prompt relief response to the population of affected areas on priority basis and provide support for the restoration of their livelihood as follows:

1. Provision of **Food and non-food items** relief for the local affected population of for a period at least thirty days.
2. Provision of water purification tablets and safe drinking water.
3. Distribution of **emergency shelter kit**
4. Distribution of health and hygiene kits after health & hygiene promotion sessions especially for women and children
5. Establishment of **Child Friendly Spaces**
6. Distribution of dignity kits among Adolescent girls
7. Installation of the **communal hand pumps** on safer places
8. Provision of **dry fodder** for the livestock (wheat straw & Concentrate)
9. Provision of **mobile medical facilities** through trained health care providers including curative and preventive activities to support the health needs of the population having difficulty in access to the main district hospital
10. Provision of **mobile veterinary services** to support the health needs of the livestock, which are the main assets of the affectees.
11. **Coordination and networking** with district administration, National Humanitarian Network, District Disaster Management Authority (DDMA) etc.
12. Monitoring & Reporting

14.1-Recommendations by the Team during Rehabilitation:

1. Disinfection of the stagnant pounds after rain stops
2. Dewatering from the crops and villages
3. **Agriculture inputs** for the coming crop Wheat for food security
4. Repair and installation of tube well and handpumps
5. **Construction of at least one room along with washroom** permanent structure
6. Repair of the poultry sheds and support for poultry birds and feed
7. Training of Community Based Disaster Risk Management

Sr.#	Activities planned during Emergency	Activities planned during Rehabilitation
1	Distribution of Emergency shelter (tents) among 10000 families.	Distribution of wheat seed/fertilizer/livestock for 5000 farmers having 3-5 acres agri. Land for wheat crop sowing
2	Distribution of food and nonfood items among the 10000 most deserving families for at least 30 days	Repair or new installation of 2000 tube wells
3	Thirty days free medical camps will be organized in which at least 15000 patients	Construction of 2000 one room along with wash room permanent structure

	will be vaccinated and physically treated along with the provision of free medicines with the coordination of the District Health Department	
4	Thirty days free mobile veterinary camps will be organized in which 15000 animals will be vaccinated and physically treated along with the provision of free medicines.	Income generation activities for 3000 women
5	Health and hygiene sessions during the medical camps.	15000 Tree plantation to save environment
6	Provision of safe and clean drinking water through boozers	Repair and installation of new hand pumps on an average 3000
7	Establishment of 20 Child Friendly Spaces	Repair and construction of 3000 latrines
8	Distribution of 3000 dignity kits among Adolescent girls	Repair and construction of 500 small poultry sheds and support for poultry birds and feed
9	Installation of the 100 communal hand pumps on safer places	
10	Distribution of the dry fodder for the livestock for 10000 animals which will cover at least 15 days	

15- Annexure:
